

know the 10 signs

How Much Do You Know?

Please circle True or False to the statements below. Then, throughout the presentation learn more about each statement and find out how much you know about the early detection of Alzheimer's.

Circle True or False

1. Having a "little touch of dementia" is a normal part of aging. True False

2. If I have memory loss, that means I have Alzheimer's disease or dementia. True False

3. If Alzheimer's disease runs in your family, genetic testing will tell you whether you will get Alzheimer's disease, too. True False

4. There's no point in getting diagnosed, because dementia is not curable or treatable. It will just upset my family and me, so there is no reason to do it. True False

5. You don't need a complete set of diagnostic tests to know if you have Alzheimer's disease. You can just try a medication for memory loss – if it works, you know. True False
